No. 14 Civ. 583 (LGS)

ECF Case

DECLARATION

I, James V.M.L. Holzer, I, declare and state as follows:

1. I am the Senior Director of FOIA Operations for the Department of Homeland Security (DHS or Department) Privacy Office. In this capacity, I am the Department official immediately responsible for responding to requests for records under the Freedom of Information Act (FOIA), 5 U.S.C. § 552 (the FOIA), the Privacy Act, 5 U.S.C. § 552a (the Privacy Act), and other applicable records access provisions. I have been employed by the DHS Privacy Office (DHS Privacy) in this capacity since November 2012. Prior to that, I held the position of Director of Disclosure and FOIA Operations. I have been with the Department since 2009.

2. I make the following statements based upon my personal knowledge, which in turn, is based on a personal review of the records in the case files established for processing the subject request and upon information furnished to me in the course of my official duties.

3. Through the exercise of my official duties, I have become familiar with the background of this case and have read a copy of the Complaint filed by plaintiffs (Requesters or Plaintiffs).

4. The purpose of this declaration is to provide the Court with an overview of the FOIA process at DHS, and to explain the particular process employed in this matter. DHS is submitting this declaration in support of its' Motion to Dismiss Plaintiffs' complaint.

THE DHS PRIVACY OFFICE FOIA PROCESS

5. DHS Privacy is the Department of Homeland Security's Privacy Office. DHS Privacy partners with privacy staff in every DHS component to assess all new or proposed programs, systems, technologies or rule-makings for privacy risks, and recommend privacy protections and alternative methods for handling personal information to mitigate privacy risks. DHS Privacy also centralizes FOIA and Privacy Act operations to provide policy and programmatic oversight, and support implementation across the Department.

6. The mission of DHS Privacy is to preserve and enhance privacy protections for all individuals, to promote transparency of Department operations, and to serve as a leader in the privacy community. DHS Privacy (1) evaluates Department legislative and regulatory proposals involving collection, use, and disclosure of personally identifiable information (PII); (2) centralizes FOIA and Privacy Act operations to provide policy and programmatic oversight, and support implementation across the Department; (3) operates a Department-wide Privacy Incident Response Program to ensure that incidents involving PII are properly reported, investigated and mitigated, as appropriate; (4) responds to complaints of privacy violations and provides redress, as appropriate; and (5) provides training, education and outreach to build a culture of privacy across the Department and transparency to the public.

7. Each Component maintains its own automated case tracking system which assigns case control numbers to, and tracks the status of, all FOIA and Privacy Act requests received by that Component. Components log all incoming FOIA and Privacy Act requests into their automated case tracking system, and input information about each request into the system (including, but not limited to, the requester's name and/or organization and, in the case of FOIA requests, the request's topic). All requesters are then notified of the case control numbers assigned to their requests. It is the custom of all Components to refer to the case control numbers in all correspondence with requesters. The automated case tracking systems are text searchable on a field-by-field basis.

8. When any DHS Component receives a referral or tasking from DHS Privacy, it mirrors the actions of DHS Privacy. Component FOIA personnel make a determination regarding which subcomponent or program office may have responsive documents, and then task that office with a search.

THE FOIA REQUEST

9. DHS Privacy received a FOIA Request dated November 25, 2013, from the Requesters on December 2, 2013. DHS Privacy assigned the matter file number 2014-HQFO-00186. Attached as Exhibit A is a true and correct copy of the Requesters' FOIA Request.

10. DHS Privacy sent an acknowledgement to the Requesters on December 6, 2013. DHS Privacy indicated in its acknowledgement that request was "too broad in scope or did not specifically identify the records which you are seeking." The acknowledgement included an explanation that the description of the records sought in the request was not sufficiently detailed to enable government employees to locate the records. The acknowledgement letter also explained that § 5.3(b) of the DHS FOIA regulations, 6 C.F.R. Part 5, require that a requester

describe the records sought with as much information as possible to ensure that the agency's search of appropriate systems of records could locate records with a reasonable amount of effort. Attached as Exhibit B is a true and correct copy of DHS Privacy's December 6, 2013, acknowledgment letter to the Requesters.

11. The December 6, 2013, letter stated that if no response was received in 30 days, the request would be administratively closed, and that the request could be reinstated if the Requesters provided additional information, thereby perfecting the request.

12. The acknowledgement letter made clear that no denial was issued. Instead, the requesters were provided 30 days within which to provide further information such as the type of record(s) sought, the DHS component believed to have created and/or controlled the records, the precipitating event believed to warrant creation of records and the time period relevant to the records or files being created and compiled.

13. DHS Privacy did not receive any further communication from the requesters, either in written form or telephonically after the December 6, 2014 acknowledgment letter was sent.

14. In accordance with DHS's acknowledgment letter, DHS Privacy administratively closed the request on January 8, 2014.

15. DHS Privacy has no record of the filing of any administrative appeal or other communication from the Requesters.

16. Despite the Requester's failure to adhere to DHS administrative regulations, DHS has, in its discretion, been processing the request.

17. DHS has commenced searching for records that may be potentially responsive to those portions of Plaintiff's request that DHS has been able to give a reasonable interpretation that allows DHS employees to search for records.

18. The search, processing, and production of potentially responsive records will take place in accordance with DHS's normal procedures of processing requests on a first-in-first-out basis.

19. As of the date of this declaration, DHS Privacy has 141 open FOIA requests. Fifty (50) of these requests were received prior to the Requesters' request on December 2, 2014.

I declare under the penalty of perjury that the above is true, correct, and complete to the best of my knowledge and belief.

Re: Freedom of Information Act Request

To Whom It May Concern:

This is a request under the Freedom of Information Act, 5 U.S.C. Sec. 552 ("FOIA"), on behalf of the Center for Constitutional Rights ("CCR") and the Detention Watch Network ("DWN") (collectively "the Requesters") for information regarding U.S. Immigration and Customs Enforcement agency ("ICE") and Department of Homeland Security ("DHS") Detention Bed Mandate, also known as the Immigration Detention Quota or the Detention Mandate. We ask that you please direct this request to all appropriate offices and components and/or departments within ICE and DHS, including, but not limited to the following offices or components within DHS: Office of Operations Coordination and Planning; Office of Policy; Office of Legislative Affairs; Office of Intergovernmental Affairs; and Office of General Counsel; and the following offices within ICE: Office of the Director and Deputy Director; Office of Detention Policy and Planning; State and Local Coordination; Office of Detention Oversight; Congressional Relations; Office of Acquisition Management; Enforcement and Removal Operations; Office of Detention Management, Enforcement and Removal Operations; and Office of the Principal Legal Advisor.

A. Purpose of Request

The purpose of this request is to obtain information for the Requestors and the public on the Detention Bed Mandate, Bed Mandate and/or Detention Quota, decision-making surrounding the mandate, and its impact on detention policy and detention contracting decisions nation-wide from June

2006 to the present. This information will enable the public to engage in an important on-going policy debate¹ and the upcoming Congressional appropriations debate (likely to begin as early as February 2014).

The use of local jails and correctional facilities, as well as private correctional facilities, to detain non-citizens in civil immigration detention is a matter of concern to the Requestors and the general public. The suggestion in recent news articles that the mandate is not welcomed by high-level Department of Homeland Security ("DHS") officials such as former DHS Secretary Janet Napolitano,² but is the result of private prison corporations lobbying certain members of the Senate and House DHS appropriations subcommittees, raises questions regarding fiscal responsibility and appropriations priorities.³ The public has a right to understand the motives of government officials and agencies on this important policy issue, especially in light of the upcoming appropriations and continued Comprehensive Immigration Reform debate.

Further, the Requesters and the public have an interest in understanding how the Detention Bed Mandate impacts enforcement operations, including the Quota and/or Mandate's relationship with how Immigrations Customs Enforcement ("ICE") determines how many and whom to detain. The extent to which decisions regarding lucrative intergovernmental service agreements ("IGSAs") with ICE and DHS are determined on the basis of local law enforcement cooperation with ICE enforcement programs such as 287(g), the Criminal Alien Program or Secure Communities is unknown to the public at this time. In addition, the Requesters and the public have an interest in understanding the costs of the Detention Bed Mandate as well as the decision-making to use detention in lieu of cost-effective alternatives.

E. The Requesters

The Center for Constitutional Rights ("CCR") is a non-profit, public interest, legal, and public education organization that engages in litigation, public advocacy, and the production of publications in the fields of civil and international human rights. CCR's diverse dockets include litigation and advocacy around immigration detention, post-9/11 immigration enforcement policies, policing, and racial and ethnic profiling. CCR is a member of immigrant rights networks nationally and provides legal support to immigrant rights movements. One of CCR's primary activities is the publication of newsletters, know-your-rights handbooks, legal analysis of current immigration law issues, and other similar materials for public dissemination. These and other materials are available through CCR's

Development, Communications, and Education & Outreach Departments. CCR operates a website, www.ccrjustice.org, which addresses the issues on which the Center works. The website includes material on topical civil and immigrant rights issues and material concerning CCR's work. All of this material is freely available to the public. In addition, CCR regularly issues press releases and operates a listserv of over 50,000 members and issues "action alerts" that notify supporters and the general public about developments and operations pertaining to CCR's work. CCR staff members often serve as sources for journalist and media outlets, including on immigrant rights.

Detention Watch Network is a national coalition of organizations and individuals working to expose and challenge the injustices of the U.S. immigration detention and deportation system and advocate for profound change that promotes the rights and dignity of all persons. DWN was founded in 1997 in response to the explosive growth of the immigration detention and deportation system in the United States. Today, DWN is the only national network that focuses exclusively on immigration detention and deportation issues. The Network is recognized as the "go-to" resource on detention issues by media and policymakers and known as a critical national advocate for just policies that promote an eventual end to immigration detention. As a member-led network, we unite diverse constituencies to advance the civil and human rights of those impacted by the immigration detention and deportation system through collective advocacy, public education, communications, and field-and-network-building. DWN has a well-known website featuring the latest news, information and developments on detention policy.

F. Fee Waiver

The Requesters are entitled to a fee waiver pursuant to 5 U.S.C.(a)(4)(A)(iii) and 6 C.F.R. § 5.11(k) on the grounds that "disclosure of the requested records is in the public interest because it is likely to contribute significantly to the public understanding of the activities or operations of the government and is not primarily in the commercial interest of the requester[s]." 5 U.S.C. § 552(a)(4)(A)(iii); *see also* 6 C.F.R. § 5.11(k) (records furnished without charge if the information is in the public interest, and disclosure is not in the commercial interest of institution). *See, e.g., McClellan Ecological v. Carlucci*, 835 F.2d 1282, 1285 (9th Cir. 1987). Requesters meet the requirements of 6 C.F.R. § 5.11(k) because the subject of the request concerns the operations or activities of the government; the disclosure of the information is likely to contribute to a significant public understanding of government operations or activities due to the requesters' expertise in the subject area and ability to convey the information; the Requesters' primary interest is in disclosure; and they have no commercial interest in the information. In addition, pursuant to 5 U.S.C. § 552(a)(4)(A)(iii), the Requesters qualify as a "representatives of the news media," defined as "any person or entity that gathers information of potential interest to a segment of the public, uses its editorial skills to turn the raw materials into a distinct work, and distributes that work to an audience." 5 U.S.C. § 552(a)(4)(A)(ii).

As described in Part D above, the Requesters are non-profit organizations dedicated to civil rights, human rights, and immigrant rights, and have a proven track-record of compiling and disseminating information and reports to the public about government functions and activities, including the government's record and position on immigrants' rights, detention and policy matters. The Requesters have undertaken this work in the public interest and not for any private commercial interest. Similarly, the primary purpose of this FOIA request is to obtain information to further the public's understanding of federal immigration enforcement actions and policies. Access to this information is

crucial for the Requesters and the communities they serve to evaluate immigration enforcement actions and their potential detrimental efforts.

As stated above, the Requesters have no commercial interest in this matter. The Requesters will make any information that they receive as a result of this FOIA request available to the public, including the press, at no cost. Disclosure in this case therefore meets the statutory criteria, and a fee waiver would fulfill Congress' legislative intent in amending FOIA. *See Judicial Watch Inc. v. Rossotti*, 326 F.3d 1309 (D.C. Cir. 2003) ("Congress amended FOIA to ensure that it be 'liberally construed in favor of waivers of noncommercial requesters.'").

In the alternative, we request a limitation of processing fees pursuant to 5 U.S.C. § 552(a)(4)(A)(ii)(II). ("[F]ees shall be limited to reasonable standard charges for document duplication when records are not sought for commercial use and the request is made by . . . a representative of the news media."). See also 6 C.F.R. § 5.11(d). If no fee waiver is granted and the fees exceed \$250.00, please contact the Requesters' undersigned counsel to obtain consent to incur additional fees.

G. Expedited Processing

The Requesters are entitled to expedited processing of this request because there is a "compelling need" for the information. 5 U.S.C. § 552(a)(6)(E)(i)(I). A "compelling need" is established when there exists an "urgency to inform the public concerning actual or alleged Federal Government activity," when the requester is a "person primarily engaged in disseminating information." 6 C.F.R. § 5.5(d)(ii).

There is an urgent need to inform the public of the policies and decision-making regarding the ICE detention bed quotas or detention bed mandate. The appropriations debate will begin in a matter of months and it is paramount that the public have the requested information to meaningfully engage in the public debate surrounding the cost of detention; decisions regarding the number of beds ICE is required to occupy; and incentives by local governments to arrest and fill ICE detention beds. Politicians on both sides of the aisle have also called attention to excessive use of immigration detention, which is directly tied to the mandate. For example, during a March 2013, House Judiciary Committee Hearing, Representative Spencer Bachus (R-Ala.) warned of an "overuse of detention by this administration," and was among 190 House members who voted for the amendment to eliminate the detention bed mandate.⁸

Given the bipartisan critique of the Detention Bed Mandate, the public has an urgent need to know why it is still in place. Congress debates the appropriations for the Department of Homeland Security as early as February of each calendar year.⁹ It is necessary for the requested information to be made available in advance of Congressional discussions of the appropriations debate, so that the public can engage meaningfully with the political issues surrounding the Detention Bed Mandate.

H. Certification & Conclusion

The Requesters certify that the above information is true and correct to the best of the Requesters' knowledge. *See* 6 C.F.R. § 5.5(d)(3). If this Request is denied in whole or in part, the Requesters ask that the Department of Homeland Security and ICE justify all deletions by reference to specific exemptions of FOIA. The Requester expects DHS and ICE to release all segregable portions of otherwise exempt material, and reserves the right to appeal a decision to withhold any records or to deny the within application for expedited processing and waiver of fees.

Re: **2014-HQFO-00186**

Dear Ms. Patel:

This acknowledges receipt of your Freedom of Information Act (FOIA) request to the Department of Homeland Security (DHS), dated November 25, 2013, and seeking records relating to the Detention Bed Mandate. You also submitted this request to U.S. Immigration and Customs Enforcement (ICE). Your request was received in this office on December 2, 2013.

After careful review of your FOIA request, we determined that your request is too broad in scope or did not specifically identify the records which you are seeking. Records must be described in reasonably sufficient detail to enable government employees who are familiar with the subject area to locate records without placing an unreasonable burden upon the agency. For this reason, §5.3(b) of the DHS regulations, 6 C.F.R. Part 5, require that you describe the records you are seeking with as much information as possible to ensure that our search can locate them with a reasonable amount of effort. Whenever possible, a request should include specific information about each record sought, such as the date, title or name, author, recipients, and subject matter of the records, if known, or the DHS component or office you believe created and/or controls the record. The FOIA does not require an agency to create new records, answer questions posed by requesters, or attempt to interpret a request that does not identify specific records.

Please resubmit your request containing a reasonable description of the records you are seeking. Upon receipt of a perfected request, you will be advised as to the status of your request.

If we do not hear from you within 30 days from the date of this letter, we will assume you are no longer interested in this FOIA request, and the case will be administratively closed. Please be advised that this action is not a denial of your request and will not preclude you from filing other requests in the future.

Your request has been assigned reference number **2014-HQFO-00186**. Please refer to this identifier in any future correspondence. You may contact this office at 1-866-431-0486 or at 202-343-1743 or the undersigned at maura.busch@hq.dhs.gov.

Sincerely,

A handwritten signature in black ink that reads "Maura Busch". The signature is written in a cursive, slightly slanted style.
